WOLFVISION

vSolution COMPOSER

DUAL SCREEN CONTENT MANAGEMENT

SIMPLIFYING MULTI-SOURCE CONTENT HANDLING

vSolution COMPOSER is available as a FREE upgrade for Cynap Pro. It allows presenters to prepare and view multi-source content on a connected preview screen before dragging and dropping it onto either the left or right-hand main display screen during presentations.

KEY FEATURES

Dual-Screen Presentation Control
Precise management of content across twin display screens, ideal for larger setups like classrooms, training rooms, or courtrooms.

Third HDMI Output for Preview Screen
Connect a control and preview monitor for easy preparation and content handling before it is displayed to the audience.

Drag & Drop Content Management
Drag and drop content to either the left or right display screen, providing flexibility during live presentations or classes.

Web Conferencing Compatibility
Streamline presentations when hybrid working and learning allowing easyhandling of multiple content materials.

Panopto Integration
Seamlessly integrates with Panopto to record multi-source content for on-demand viewing or sharing.

Ideal for vSolution MATRIX Setups
Optimized for AVoIP multi-screen environments, ensuring smooth content distribution across multiple displays.

vSolution **MATRIX**

AWARD-WINNING AV OVER IP
MULTI-SCREEN COLLABORATION SYSTEM

COLLABORATIVE WORKING AND LEARNING MADE SIMPLE!

Flexible, networked AV multi-screen presentation and collaboration system, perfect for active learning spaces, training rooms, and courtrooms. With a Cynap Pro as its centrepiece, it allows high-performance, cost-effective sharing of content between multiple screens and workstations.

KEY FEATURES

- **Scalable Multi-Screen Content Sharing**
  Supports up to 40 workstations, for easy content distribution across multiple screens in working and learning environments of any size.

- **Flexible configuration options**
  Cynap Pro acts as a central hub, managing content distribution. Each individual workstation or screen has either a Cynap Core Pro or Cynap Pure Receiver, providing a flexible, budget-friendly solution.

- **Ideal for Active Learning and Hybrid Environments**
  Perfect for classrooms or training rooms, enabling participants to interact with content and share materials seamlessly during both in-person and hybrid sessions.

- **Easy Control of Multiple Screens**
  Simple drag and drop 'Room View' control interface enables content to be moved effortlessly between different workstations in the room.

- **Courtroom Applications**
  Controlled presentation of evidence in both in-person and hybrid sessions, allowing content to be displayed across multiple screens for judges, juries, and attorneys.
